Directory Publishers

We publish Directories for sixty towns and cities.

New Haven Your advertisement in a dozen of them would be a
Springfield local salesman, silently soliciting business. Let us
Bridgeport tell you what is possible with even a small investment.
Newark Our Advertising Service Department will help you tell
Paterston your story as it should be told.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

THE PRICE & LEE CO.

PUBLISHERS OF DIRECTORIES

OF OVER ONE HUNDRED CITIES AND TOWNS

The difference between

Reference and

Creative media

is their direction

The seller's efforts to stimulate demand is well carried by outgoing, extensive, display media, but—

he should remember that initiative rests with the buyer, and when the hunt for the goods begins, creative media which may have built up the demand, are at a disadvantage.

It is the difference between coming and going.

The creative advertising is going after the prospect, to make him want to buy, but when you have him coming, reference media should be used to connect the demand with the local supply. Every effort should be made to direct the demand to the goods advertised, at the point where they may be seen.

It is here that reference media, directories, find their logical place in the cycle of the sale.
