We publish Directories for sixty towns and cities. Your advertisement in a dozen of them would be a local salesman, silently soliciting business. Let us tell you what is possible with even a small investment. Our Advertising Service Department will help you tell your story as it should be told.

# Common Sense

*About City Directory Circulation*

*The true value* of advertising circulation is *circulation consulted*.

*To be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

*To be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

*For every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

**1,067,500**
